

EXPULLED:

No Intelligence Allowed

Review by Pastor Peter Rahme

EXPULLED: No Intelligence Allowed, is a valuable tool in this current culture war because it makes an intelligent contribution and balances the ongoing creation/evolution debate. It also has the power to change the climate and the potential to equip, empower and encourage Christians to stand up and speak out on issues

concerning faith and freedom in a powerful way and a convincing manner.

What this PG rated , 98 mins film does so well, is that it confronts the Darwinian worldview head on by *revealing the flaws of Evolutionary thinking and the fact that many educators and scientists are being denied employment for even proposing there is evidence of 'design' in nature.*

The film exposes the link between Darwinism, Nazism, Communism, eugenics and abortion, as well as reinforces the vision and value of FREEDOM; the price and power of FREEDOM; the service and sacrifice for FREEDOM; and what life could be without FREEDOM .

Having premiered the feature film in August at the 'Christian Worldview' monthly forum at the parliament house theatre and hosted the cinema premiere and private screening opening night, I've seen firsthand the appeal that this brilliant documentary had on the packed audiences in both instances.

If you like to host a public screening or organize a fund raising event call me on 0418 249 989 or email me on chairman@christianworldview.org.au and I'll be glad to help you with it.
