

# Unlocking the Mystery of Life

## THE SCIENTIFIC CASE FOR INTELLIGENT DESIGN

This is convincing and accurate documentary that you will be proud to share with even your most scientifically critical-minded, secular friends.

In 1859, Charles Darwin published, *On the Origin of Species*. In it, he argued that all of life on earth was the product of undirected natural processes, time, chance, and natural selection. Since Darwin, biologists have relied on such processes to account for the origin of living things.

In "**Unlocking the Mystery of Life**" this approach is challenged as never before by top-notch, contemporary scientists who are advancing a powerful idea — "the theory of intelligent design."

Using state-of-the-art computer animation, this compelling documentary transports you into:

1. The interior of the living cell to explore systems and machines .....
2. The intricacy of a microscopic bacterial rotary motor, which spins at 100,000 rpm.
3. The wonder of DNA that stores instructions to build the essential components of every living organism.
4. Plus much more

The DVD also includes an additional documentary video: What Darwin Saw (a close-up look at the remarkable wildlife Charles Darwin encountered on the Galapagos Islands), as well as a Video: Darwin and Design: Questions and Answers (scientists and scholars answer frequently asked questions about Darwinism and intelligent design)

*"The science is solid and the computer animations are superb. Unlocking is a great film.  
Phillip S. Skell, Ph.D., Member, National Academy of Sciences, Professor of Chemistry, Emeritus,  
Pennsylvania State Uni.*

*"Outstanding computer animations. Some of the best I've ever seen. I am a cell biologist and I want to congratulate you."  
Marvin J. Fritzer, Ph.D., M.D., Professor of Molecular Biology, University of Calgary*

*"Its as good as anything I've seen on NOVA. The program is a delightful presentation that will be of interest to scientists and laymen alike."  
Edward T. Peltzer III, Ph.D., Ocean Chemist*

*"Extremely thought provoking (and a lot of fun to watch). Unlocking the Mystery of Life" highlights the big questions about the origin of life here on earth."  
Guillermo Gonzalez, Ph.D., Astrobiologist, Assistant Professor of Astronomy, Iowa State University*

*"It is tremendous! I really enjoyed it."  
Bijan Nemati, Ph.D., Senior Engineer, Jet Propulsion Laboratory, NASA*

*"Unlocking the Mystery of Life is a fascinating documentary. Visually stunning. Everything about it was just top notch."  
Art Battson, Executive Producer, University of California TV, Director of Instructional Resources,  
University of California, Santa Barbara*
